G.O.P. CABINET MAY DRAW ON "SOLID SOUTH"

Chance to Break Demo-
cratic Hold Seen for
Harding.

DREAM OF MCKINLEY

Appointment of Dixie Man
Seen as Stroke for Great-
er Party Power.

By ROBERT T. HARRY.

Republican leaders would like to deal another body blow to the Democratic hold on the South by having President-elect Harding place a Southerner in his Cabinet. It was disclosed here today that something more than mere political gossip attaches to discussions to that end now engaging party leaders who are reaching Washington. The Harding landslide, it is urged, opened the eyes of Republican leaders to their possibilities in the South. Some of them believe the dream and the desire of President McKinley may be made come true. They think that Dixie can be won away from complacent control of the Democrats if the Republican administration will discard the party's old indifference to the South.

It was pointed out that Senator Harding has typified in many respects the McKinley kind of Republican. Business men of the South weary of the one-sided political control, which has failed to develop the best type of political leadership in their States, are represented by the McKinley kind of Republican. They are in an effort to batter down the wall of sectionalism.

Request for Timber.

Several Republican Senators of prominence indicated yesterday their desire to promote Republican recognition of the South in every possible manner. "Who is there in the South of Cabinet size?" is a question. A. T. Hart, of Kentucky, and J. H. Hamilton, of Kentucky, are prominent among the party leaders suggested. Both rendered yeoman service to the Harding cause at the Republican convention. Hamilton, who is now in the Senate, and Hart, who is now in the House, are both prominent among the party leaders suggested. Both rendered yeoman service to the Harding cause at the Republican convention.

They realize that Kentucky has a way of taking its Democracy straight in national elections, and the popular victory for a Republican Senatorial candidate means much to them. William O. Bradley was chosen for the Senate by the legislature. Richard L. Ernst comes as first to win such a victory at the polls.

Party Expansion Aim.

There is a feeling that by selecting for an important Federal post a man of prominence from the South the Republicans can hamper in large measure the Democratic campaign of the Democrats. Some of the progressive group at the Capitol would even venture so far as to advise the choice of a man, heretofore Democrat, in order to strike the harder at the Solid South by extending an open invitation to business men to join the Republican party.

The problem of the Republicans is many complications. Not the least is the negro. He has constituted the Republican party for years. He was the delegate to the Republican national conventions. In Georgia, Henry Lincoln Johnson is Republican National Committeeman. Many Federal positions will go to the negroes. The appointment of negroes as collectors of internal revenue or to other positions where white people would be forced to deal with them officially would enable the Democratic managers to bestir anew the racial prejudice which always has blocked Republican progress in the South.

BUDAPEST AIMS RIOTS POLICE DICTATORSHIP

VIENNA, Nov. 12.—Rioting broke out in Budapest today, according to a News Agency dispatch, when Gen. Lucachich was appointed commander of the metropolitan forces, a virtual dictatorship. Trains were stopped and traffic within the city suspended. Police were said to be occupying government buildings and fortifying themselves with machine guns and other weapons. The population, terror-stricken at the outbreak, was said to be fleeing. The appointment of Gen. Lucachich to head the metropolitan forces was taken as a step toward crushing demonstrations which have occurred.

Icy Gale Prevents Air Search for Lost Plane

GREAT LAKES, Ill., Nov. 12.—An icy gale over Lake Michigan this afternoon prevented airplanes from being sent out with the search for the navy seaplane S-2-L, missing since Wednesday with a crew of three. A revenue cutter and a sub chaser patrolled the shores hunting the seaplane.

Winter Routs Love God From Park Benches

Old Man Winter wins again. Love laughs at a number of things, but the little god of the magic darts received a K. O. last night, if the popularity of the benches in Lafayette park can be used as an index to the result of the annual classic between the Winged-Kid and King Cold. The trying places provided by a kind Congress went unthought and unappreciated. Biting his icy breath struck mightily through all Washington thoroughfares and at a late hour had hung up his record for the year—30 degrees. The cold has gripped the entire country and the low score of 8 degrees above zero was registered in Helena, Mont., while Cheyenne, Wyo., reported a zero. According to the Weather Bureau the cold spell will not be broken for several days. The forecast for today is, "fair and continued cold; fresh and strong north winds."

SEE OPPOSITION TO FARE BOOST

Chairman Citizen's Committee Says Public Is Against Boost.

The Federation of Citizens' Associations will oppose a further increase in local street car fares, William McK. Clayton, chairman of the federation's public utilities committee, said last night.

Officials of the Washington Railway and Electric Company have virtually completed statistics which they will present to the public utilities commission on or soon after November 15, in a petition asking for a 5-cent fare.

An increase in fare for the Washington Railway and Electric Company would mean a similar increase for the Capital Traction Company, and it is because of this, Clayton said, that the citizens' body will fight the raise in fare.

"The people have reached their limit," Clayton said, "and neither will nor can go further. The Capital Traction Company does not need an increased fare to continue in operation, but will get it if the other companies do. The people of Washington have no promise of a merger of the two systems. They have no promise of better service. Therefore they will oppose an increase."

The present Public Utilities Commission has never before set in a street railway case. It is believed that the commission will delay its decision until legislation to be taken up by Congress next month, bearing on a merger, has been acted upon. The commission, however, must make its decision before December 31, after which the fare will go back to its former level. The commission is known to support a merger of the local systems, and probably will support the proposal before Congress.

D. C. MAN HELD FOR BLACKMAIL

Police Claim Donald Warren Knox Phoned Woman Warning.

"Unless you send \$25 to the pool-room on Ninth street, near E, right away you will be exposed." This mysterious message received yesterday afternoon about 2 o'clock over the telephone by Mrs. Lila C. Beall, caused this woman considerable worry and resulted in the arrest by Detective J. R. Stringfellow of Donald Warren Knox on a charge of blackmail. Mrs. Beall, who lives at 3020 Cambridge place northwest, instead of complying with this mysterious request, got in touch with Detective Stringfellow, by a bit of clever subterfuge, made arrangements for the desired sum to be sent by a messenger from Mrs. Beall to the "mysterious party." The detective then trailed the messenger and took Knox into custody when he accepted the envelope containing the \$25 in three marked bills. Knox gave his address as 4410 Kansas avenue at the First precinct station, where he is being held. He denies that he called Mrs. Beall.

Minister to U. S. Flayed In Polish Parliament

WARSAW, Nov. 9 (delayed).—Prince Lubomirski, the Polish Minister at Washington, was attacked in parliament today by M. Moraczewski, the former Socialist premier. Moraczewski charged the prince with neglecting his duties in Washington, and asked for his recall and replacement with an able, virile diplomat. Former Premier Moraczewski's actions are interpreted as part of the campaign of the Left party in the house against creation of a senatorial and also against conservative leadership. No action is anticipated resulting from the interpellation. (Copyright, 1920, by Public Ledger Co.)

NEW WILSON APPOINTMENTS TO BE HELD UP

Republican Policy Will Be Extended Even to Tumulty.

SEC. MILLER TALKS

Democratic Action in Taft Regime Will Be Emulated Now.

None of the appointments made by President Wilson between now and the 4th of March will be confirmed by the Senate, according to plans revealed by Clarence B. Miller, secretary of the Republican national committee, yesterday. This policy will be extended even to Joseph P. Tumulty should the President nominate him for chief justice of the court of customs appeals, as now seems most probable, according to Miller.

The seat on the customs appeals bench, in which it is understood the President would like to see Mr. Tumulty, is a life job carrying a salary of \$10,000 a year. It has been vacant since the death of Robert Montgomery, of Michigan, several months ago. The court passes upon controversies developing from appraisals by customs officers. "Many Republican Senators might be disposed to make distinctions, but they feel that if they started discriminating it would be entirely too difficult to draw the line anywhere," said Mr. Miller, who added that a similar policy was followed by the Democrats toward appointments by President Taft.

Miller to See Hays.

After making this statement Mr. Miller left for New York, where he will hold a conference with Republican National Chairman Will Hays. That the fight against the peace conference which will determine the policies that will be followed during the coming short session of Congress.

Fred W. Upham, national treasurer, will arrive in New York Monday with the complete campaign financial statement which will be filed with the House of Representatives after it is approved by the chairman, Harry M. Daugherty, President-elect Harding's personal representative, is scheduled to arrive for the conclusion of the party deliberations.

Included among the appointments affected by the policy announced by Secretary Miller are the seven vacancies on the Shipping Board authorized under the Jones act. President Wilson has been endeavoring to fill these vacancies, but has been unable to do so, if confirmed, would result in control of that board throughout the four years of the Harding administration.

Policy Not Unexpected.

That such a Republican policy was not wholly unexpected is shown by unwillingness of the Republicans and Democrats alike to accept appointments to the Shipping Board. Unless confirmed none of the appointments would draw pay.

"In cases where nonpartisan organization of boards is provided by law will the Republican Senate consent to let down nonconfirmation bars?" Mr. Miller was asked. "I imagine that you will find the Republicans taking much the same position that the Democrats took in reference to President Taft's appointments at the time we were waiting for the Wilson inauguration," he said. "We will not be quite so vicious as they were but just as effective."

Chinese Bride of 12 Asks Annulment; Was Sold for \$700

NEW YORK, Nov. 12.—Anna Lee Nong, 12 years old, applied in court here today for annulment of her marriage to David Lee Nong, restaurant keeper of Binghamton, N. Y. The child was sold to the restaurant man for \$700 by her foster-mother, she said. She was 11 years old when she was taken to Binghamton for the ceremony. She wept when she appeared before the judge who was to perform the ceremony, and he refused to marry them. The minister was later found who was willing to read the service. The girl escaped a week after marriage, but was caught and made a second escape and reached the Chinese mission here. The decision was reserved today.

CHAMP CLARK TO GO ON LECTURE PLATFORM

Former Speaker Champ Clark, who was defeated for re-election to Congress, will go upon the lecture platform for two years and then be a candidate to succeed James A. Reed in the Senate, according to reports that reached Washington yesterday. The former Speaker is the third oldest man in point of service in the House. Speaker Gillett alone has served longer, forty-four and twenty-eight years, respectively. Clark will have been in the House twenty-six years when his present term expires.

Eighteen Persons Hurt In Texas Train Wreck

BLOOMINGTON, Tex., Nov. 12.—Eighteen persons were reported injured today, when a passenger train on the St. Louis, Brownsville and Mexico Railroad ran into a broken rail on the outskirts of Bloomington. Four cars, including two Pullmans, were derailed. The train was en route from Houston to Brownsville.

SCENES AT 9th AND F STS. LAST NIGHT AFTER TRIPLE CAR CRASH

Traffic on several lines was tied up and scores of home-bound folk escaped serious injury at 6:30 o'clock last night when a west-bound Mt. Pleasant car smashed into a north-bound Ninth street car, which in turn crashed into a south-bound car. Picture above shows how the vehicles were jammed at the time the wrecking crews arrived.

VETO WEAPON AGAINST G. O. P.

Wilson Would Block Any Peace Resolution, Says Senator Flood.

President Wilson will again veto any peace resolution passed by Congress in the coming session, in the opinion of Representative Henry D. Flood, of Virginia, who said yesterday that the Democrats would continue their opposition to any such measure. In spite of the outcome of the election, he said that the enactment of a peace resolution in this session of Congress would be continuously fought by the Democrats.

The present position of the Democrats, according to Senator Flood, would virtually call for a separate peace with Germany, which possibility he characterized as a "dishonorable" thing for this country to do.

"A peace resolution would unquestionably put this country at a great disadvantage," said the Senator. "The position that this country should ratify the Treaty of Versailles and that we should enter the league of nations will be maintained."

The possibility of another attempt by the Republicans to pass a resolution declaring a state of peace between this country and Germany, thus ending the technical state of war now existing, is not considered without the realm of possibilities in the coming short session of Congress.

YANK GRAVES SITES SELECTED

War Department Announces Four Cemeteries in France.

Provision for four permanent cemeteries in France, in addition to the one recently established in England, was authorized yesterday by the War Department for the internment of American dead overseas at the suggestion of the War Memorial Council. The four cemeteries are to be at Surles, near Paris; Romagne in the Argonne region; Belleau Wood, where soldiers and Marines made common history; and at Bony, which shall be known as "Flanders Field."

"In these cemeteries," says the War Department announcement, "there shall be no grouping of bodies on the basis of military or naval rank and there shall be no variation in the government headstones recently approved for graves of our dead, save in the individual inscriptions now authorized by statute or regulations, or necessary to indicate service in the army, navy or Marine Corps, except that there may be placed within the rossette at the head of each stone an emblem of religious faith to differentiate the Christian from the Jewish dead, such as the cross or the star of David."

The council also expressed the conviction that the time had arrived for the adoption of a comprehensive scheme for the completion of the undeveloped sections of Arlington National Cemetery and that Congress should be asked to give its consideration to this project and to provide for the improvement of national cemeteries in the United States in as generous a manner as is being done for similar projects in France.

President May Read Farewell In Wheel Chair

When President Wilson took his motor ride yesterday afternoon it was apparent that he was feeling better than in many months. He was bundled up in deference to the sharp November winds, of course, but through the ride he cheerfully acknowledged salutes as in the old days.

In fact, the President's condition seems so much improved since the election that the report is current that he will attempt to read his farewell message to Congress in person early next month.

Should Mr. Wilson make such an effort the incident will furnish one of the most dramatic in the nation's history. No one seems to ever hope that he will be able to walk into the House of Representatives as of old. He would necessarily be "wheeled in" for the ceremony.

General expectation that the President will continue a factor in American life for years is indicated by persistent bidding for his literary services when he steps out of the White House.

BALLOT TOPIC IN BRIGHTWOOD

Citizens Ask District Co-operation in Program for Legislation.

The Brightwood Citizens' Association last night lined up its program of resolutions to be presented to Congress. Co-operation of other associations was asked to support the program. At the coming session of Congress the election of the District of two civil commissioners, delegates to Congress and members of the Board of Education.

The association also pledged itself to fight for the stabilizing of tax revenues on a fixed ration of national and local contributions; the merger of all street railway lines under one control and management, and the appointment of a public utilities commission separate and apart from the Board of Commissioners.

The organization protested the gas rate of \$1.32 ordered by the Public Utilities Commission, and stands opposed to an increase in street car fares above the present 4-for-30 cents rate.

Daniels Not to Notify Admiral Sims of Medal

Secretary Daniels yesterday emphasized his position as to the distinguished service medal awarded Admiral William S. Sims by stating that no official notice of the award will be given. The admiral will be expected to take cognizance of press reports if he desires the medal which is now in the custody of the Bureau of Navigation. One official said Admiral Sims would be given an informal delivery of the medal if it would be delivered to any messenger authorized by him to receive it.

If the admiral persists in his refusal to accept the medal may be given his grandchildren, an official said. The same rule will apply to Admiral Decker and Capt. Harbrouck.

GUNSBURG TO ANSWER CHARGES IN BOSTON

Maurice Gunsburg, formerly leader of the congregation "Tikvah Israel," 196 1/2 Fourth street northwest, who was arrested Friday week for the Boston authorities, will today be taken back to the Hub by Inspector M. J. Hartnett. He will be compelled to answer an indictment returned against him there for abusing a 14-year-old girl.

Hoover Thankful For Harding Gift To Child Relief

NEW YORK, Nov. 12.—Herbert Hoover sent the following telegram today to President-elect Harding thanking him for the \$2,500 check contributed for child feeding in Europe through the Literary Digest Fund:

"I am deeply grateful for your generous subscription and the leadership in support of the \$23,000,000 fund that I must raise for the continued support over the coming winter for 2,500,000 waifs and undernourished children in Europe. The American relief organization have on behalf of the American people borne this burden since the armistice and I feel certain that the heart of America will not permit our doors to close to these most helpless products of the war."

WAR IN SENATE LOOMS LIKELY

Pro-Leaguers and Irreconcilables Ready to Fight To the Death.

Increasing evidences of a prospective war in the Senate between the conservatives and irreconcilables on the treaty question are contained in reports made public here yesterday to the effect that President-elect Harding is inclined to listen more responsively to such pro-leaguers as Senator Root and Charles Evans Hughes, than to Senators who favor complete rejection of the league ideas.

These reports are credited to pro-league sources, which are said to have in contemplation the raising of an immense fund to carry on propaganda among the people in the hope of arousing sentiment for a league of nations and compelling the Senate to ratify the treaty.

Senator Borah, Johnson, Brandegee and other irreconcilables threaten to fight to the last ditch. "Senator Borah wants no league association of any kind. If it is true, that the President-elect intends to follow the advice of Taft, Root, Hughes and others who represent 'reactionary' opinion, a bitter war in the Senate may be looked for. Belief was expressed here yesterday that it may even be expected to break when the new President sends the Senate his selection of Cabinet members, especially his choice for Secretary of State. Although it is deemed highly improbable that Harding will put Root in his Cabinet, it is believed that any suggestion of Root's name or any yielding to his influence on the treaty or upon any other question will be quickly repented by the progressive group."

VILNA PLEBISCITE UP AT PARLEY IN WARSAW

WARSAW, Nov. 12.—Poland and Lithuania having agreed to a plebiscite to settle the fate of Vilna, conversations are on between representatives of the league of nations and the Polish government in Warsaw. The question to be settled is whether the plebiscite is to be confined to the territory directly adjacent to Grodno and Lida, which are now occupied and are being administered by the Poles.

There are no indications that Gen. Zeligowski is in actual possession of the plebiscite territory or that he has been consulted. The league representatives left Warsaw yesterday on a special train to begin the plebiscite work. It is anticipated that three weeks will be required to complete the work. The Poles insist they want a real plebiscite and not a hard-boiled one, such as they say they had in West Prussia.

ADRIATIC PACT IGNORED HERE

Wilson Unconcerned by Allied Settlement of Fiume Controversy.

President Wilson will utterly ignore the Adriatic settlement which has been reached by the allied powers. It was authoritatively stated at the State Department yesterday. Whether the President's course is due to pique over the fact that the terms of the settlement are in contravention of the terms he laid down while in Fiume, or whether it is notice of his intention to withdraw Italy together from attempts to dictate European settlements could not be learned.

The details of the settlement were laid before the President by a State Department Official yesterday. Inquiries as to whether or not the settlement was hastened by the overwhelming defeat of the Wilson party were answered with indignant denials.

The official statement made by Secretary General, Contreras, of Italy and now in the hands of the State Department, gives the following details of the settlement: "With the exception of Zara and Gorizia, which go to Italy, Jugo-Slavia obtains Dalmatia, including Schenico. The new frontier assigns Idria, Audeburg and San Pietro to Italy and runs through Monte Nevoso to the Adriatic, which it divides between Volosca and Castua, the latter being given to Fiume."

The Italian line of frontier is within the realm of possibilities. It was announced by Representative from Fiume to San Pietro is assigned to Italy. The country south of Monte Nevoso is divided between Jugo-Slavia and Fiume on a basis of the higher altitudes go to Jugo-Slavia and the lower altitudes to Fiume. Jugo-Slavia also will get Longatico and the adjacent valley. A commercial treaty also is being negotiated at Rapallo."

Solons to Begin Work
On Money Bill Monday

Hearings will start Monday on the appropriation bill to be considered by the Sixty-seventh Congress, it was announced by Representative W. R. Wood, of Indiana, chairman of the subcommittee, yesterday. Representative James McAdams, of Illinois, though defeated for reelection, has already appeared for the conduct of the hearings.

March 14 Harding's Date
For Call of Extra Session

President-elect Harding will call the extra session of Congress for March 14, it was reported in Republican circles here yesterday. The new Congress is expected to remain in session continuously for two years. It will first take up a resolution declaring peace, the revision of taxation and a new tariff bill.

Chinese Approve Road Plan.

SHANGHAI, Nov. 12.—Shantung officials approve the plans of the American Red Cross to build a sixty-mile road in the province. The Red Cross will spend \$500,000 on the project and use 25,000 famine refugees. Two million persons are actually starving in Shantung now, and there will be 5,000,000 during the winter if unrelieved. (Copyright, 1920, by Public Ledger Co.)

THREE IN NO MARRIED HERE IN TRIPLE TROLLEY CRASH

Collision at 9th and F Street
Inflicts Minor Hurts and
Halts Traffic.

SCORES ESCAPE DEATH

Motorman Says F St. Car
Failed to Stop at Loading
Platform.

Three Washington Railway and Electric Company street cars crashed together at Ninth and F streets at 6:30 o'clock last night, injuring three men and inflicting minor bruises on a dozen other passengers. Scores of home-bound business men and women narrowly escaped death in the collision. Strap-hangers were thrown to the car floors and faces were cut by flying glass. F. S. Hummer, motorman of a westbound Mount Pleasant car, is said to have tried to stop his car at the loading platform on the northeast corner of the intersection, but the car rolled past the platform and ploughed into a northbound Ninth street car, which in turn rammed a southbound Ninth street car broadside.

Before Hummer's car struck the northbound car, he attempted to throw in reverse, it is said, but the overhead fuse blew out. The northbound car, operated by Eugene Rollins, motorman, and George Driah, conductor, lurched into the southbound car, demolishing windows in the latter. Hummer's car, which had a twisted wreck, slipped partly from the tracks and locked itself in the triangular jam. The injured are: A. F. Brooks, 2507 Wisconsin avenue northwest, and Milton Brill, 619 Vernon street northwest.

NORMAN T. WHITAKER, 522 O street northwest. A temporary panic among the passengers in the cars hastened the accident. A. F. Brooks, of 2507 Wisconsin avenue northwest, and Milton Brill, 619 Vernon street northwest, were removed from the wreckage, which had been struck with double force. Both men were hurt and bruised slightly. They were taken to the hospital. Hummer and Rollins escaped also with slight injuries. Norman T. Whitaker, prominent attorney here, was sitting near the center of the southbound car when the collision occurred. He was thrown to the floor of the car, rendered unconscious and cut by flying glass. A friend removed Whitaker to his office at 522 F street. The attorney later discovered he had lost a handbag, containing valuable personal papers, in the collision that followed the smash.

R. J. V. and A. R. Rodman, motormen, and conductor respectively, of the southbound car, were injured. A. F. Brooks, a Mahler, conductor of the westbound car. Hundreds had witnessed the accident and many more gathered as cars passed by. The cars were stopped until 7:15 o'clock when the repair men, working by flashlight, began to remove the demolished vehicles. Traffic on both lines was stopped until 7:15 o'clock when the repair men, working by flashlight, began to remove the demolished vehicles. Traffic on both lines was stopped until 7:15 o'clock when the repair men, working by flashlight, began to remove the demolished vehicles. Traffic on both lines was stopped until 7:15 o'clock when the repair men, working by flashlight, began to remove the demolished vehicles.

Woman Rescued
From Drowning
In Her Bath Tub

Replying to an emergency call sent in by residents of an apartment house at 1425 T street northwest, police arrived last night just in time to save Miss Cecelia Jones, from being drowned in her bath tub. When the police forced their way into Miss Jones' apartment, which was on the third floor, they found her lying in the bathtub and the woman, unconscious, just about to sink in the bath water which nearly filled the tub. The police could not determine how the gas jet was turned on or why, as the room was equipped with electric light. W. Wiston R. Stibbs, of Emergency Hospital, who treated her, said the woman had been in the bath for some time before being rescued. Miss Jones, according to the police, lives by herself and has no relatives in Washington.

RUSH OF IMMIGRANTS
TIGHTENS PASSPORTS

Due to the unprecedented rush of immigration from Europe, the State Department yesterday issued new instructions to agents abroad restricting the issuance of passports. Hereafter applicants will be required to apply to the American commissioner or counsel in their district for a visa, and to present affidavits from relatives or friends in this country setting forth their object in coming to America, what their occupation will be and with whom they will reside. No alien whose passport does not bear the proper visa will be allowed to land, it was stated.

Siddons Praises Lincoln's Work. Abraham Lincoln and his work for the betterment of the race were extolled last night by F. L. Siddons, justice of the Supreme Court of the District of Columbia, when he spoke before an audience of negroes in the Vermont Avenue Baptist Church, colored. The occasion was an armistice day celebration of the National Memorial Association.
